ETTC SUPPORTS IRAQI IDPS THROUGH THE FUNDINGS OF THE PEOPLE OF LOWER SAXONY

IDPs Support campaign by ETTC

ETTC started to support IDPs in August 2014 after the several attacks of ISIS on different places in Iraq and disputed areas which lead to an enormous fleeing of people to safe places in Kurdistan.

ETTC tries to provide the daily needs for them, including meals, fruits, and candies for children and other daily needs. These needs are delivered to the IDPs in packages for families which are staying at the camps, IDP centres and other not identified places. These supports are mainly funded by European Communities and companies mostly by Germany.

ETTC could continue the support for the IDPs in Erbil through the donation of the people of Lower Saxony, Germany. On Thursday 21st August 2014, The European Technology and Training Centre (ETTC) could provide another support for IDPs in Erbil. Food packages for 350 IDP families have been distributed in different places in order to expand our supporting limits for families in different camps and places. The total figure for supported families reached 1650 packages so far.

For the second time a team from the council of Erbil governorate had joined the campaign of the support.
